

THREE MEN'S MORRIS

ASSEMBLY INSTRUCTIONS

The attached print-and-play sheet is designed for printing in black and white onto A4 paper. To assemble the game, you will need: a black and white or colour printer capable of printing graphics onto A4 paper; a craft knife and ruler, two A4 sheets of thick card, a pair of scissors and some good paper glue.

1. Print out the print-and-play sheet onto A4 paper. If using an inkjet printer, give time for the ink to dry.
2. Glue the printed paper onto the thick card. Ensure that the entire surface of the card is evenly covered with glue, as the board and pieces will be cut out. Leave the glue to dry.

3. Cut out the board and individual pieces. You may want to apply more glue if the paper is coming loose around the edges.

There are alternative methods. If you have only scissors, you can still make the board but the results may be poor; it's probably best to cut the paper and card to fit before gluing in this case.

If you have access to a laminator, the print-and-play sheets could be printed onto thin card before laminating; when cutting out the board and pieces you may want to round off the corners to prevent scratching.

SUGGESTED RULES

To begin: the board is empty, and each player has three pieces in hand. Players decide at random who goes first.

Placement & movement: Each player takes it in turn to place a piece on any intersection on the board. When all of the pieces are entered, players instead move a piece on

the board along a marked line to the adjacent point.

To win: when one player has a straight line of three of their own pieces, horizontally, vertically or diagonally along a marked line, that player wins the game.
